

Lubricants SINGAPORE

GULF SYNTRAC 4T

10W40

1L

ADVANTAGES AND POTENTIAL BENEFITS

- Excellent thermo-oxidative stability minimises deposits and controls oil thickening facilitating extended engine and oil life
- Exceptional antiwear properties protect vital engine and gear components leading to reduced maintenance costs
- Controlled frictional properties eliminate clutch slippage leading to increased power/ fuel economy and improves drivability
- Special detergents/ dispersants used in this oil ensure cleaner pistons leading to faster heat dissipation and longer engine life
- Excellent shear stability maintains viscosity under high temperature-high shear environment and provides improved wear protection
- Outstanding low temperature properties enable easy starting at low ambient temperatures and ensure effective lubrication and wear protection at start up
- Effective rust and corrosion inhibition property ensures longer life of critical engine components

SPECIFICATION

- API SN
- JASO MA2

GULF PRIDE SCOOTER PLUS

10W40

1L

ADVANTAGES AND POTENTIAL BENEFITS

- These specially formulated friction modified oil reduces the friction between moving parts of the engine, thus has potential to provide fuel economy benefits.
- Excellent thermo-oxidative stability of these oil protects the compact and enclosed scooter engines operating at higher temperatures.
- Special formula used keeps engine parts cleaner and thus provide longer life.
- Superior anti-wear additives protect highly stressed engine components leading to reduced maintenance costs.
- Effective rust and corrosion inhibition property ensures longer life of critical engine components.
